SECURITY CLEARANCE

Active Secret Clearance – Department of Defense, granted 10/07/2026

SKILLS

Languages: Python, Java, C, R
Tools & Technologies: Git, Node.js, JetBrains, VS Code, Linux(Ubuntu), SQL, HTML
Other: Team Building, Critical Thinking, Customer Service, Time Management, Soldering

EDUCATION

The University of Tampa | B.S. Computer Science (Candidate, Spring 2027) Tampa, FL
Minor: Data Science | GPA: 3.88

Moses Brown School | Preparatory School Providence, RI

PROJECTS

Security Camera Enhancement App (URI Grant): Built a prototype application that boosts community camera security by training an AI model for threat detection and implementing blockchain.

Tampa Palms Professional Center Website (TPPC): Contributed to full-stack development for the Tampa Palms Professional Center website, focusing primarily on front-end components for the amenities page using Node.js, with back-end data sourced from Supabase.

University of Tampa Laser Team Rideshare Website: Built an Arduino-based GPS tracker using an UNO R4 WiFi and GT-U7 module to display golf cart locations in real time on a team-developed React and Firebase ride request app replacing the L.A.S.E.R. team's flip phone system.

MIKEL.INC Website: Built and deployed the MIKEL INC. company website with Node.js and Tailwind CSS, leveraging AI-assisted development to accelerate design and implementation.

EXPERIENCE

Intern | MIKEL INC., Fall River, MA 2026–Present
